About Me

Data Analyst skilled in SQL, Python, Power BI, Tableau, and Excel with proven ability to analyze large datasets, build interactive dashboards, and deliver actionable insights. Experienced in handling financial portfolios and customer data in the banking domain, combining technical expertise with business knowledge to support data-driven decision-making.

Work Experience

HDFC Bank – Personal Banker (Classic Portfolio)
2025(JULY)-2025(October)

- Managed a portfolio of classic banking customers, providing personalized financial solutions.
- Analyzed customer transaction and investment data to recommend savings, insurance, and investment products.
- Prepared Excel-based reports to track portfolio performance and customer satisfaction.

DMG Solution – Content Writer / Data Analyst

October 2023 – August 2024

- Created technical content including user guides and documentation for data-driven tools.
- Assisted development teams in analyzing datasets and validating outputs for accuracy.
- Produced clear visual reports and dashboards to support internal decision-making.

Projects

Credit Data Analysis & Dashboard (20 Days)
- Performed exploratory data analysis (EDA) on a credit dataset with 279k+ records.
- Extracted 20+ key insights related to customer risk, credit utilization, and repayment behavior.
- Built interactive visualizations (histograms, scatterplots, heatmaps, treemaps) with Plotly.
- Deployed a self-contained HTML dashboard for stakeholder use and reporting.

Sales Analysis Dashboard (10 Days)
- Cleaned and processed sales transaction data to identify trends and anomalies.
- Created visualizations to analyze sales growth, product performance, and regional patterns.
- Developed an interactive reporting dashboard with Dash/Plotly to provide real-time insights.

Pathsala College Portal (61 Days)
- Designed and implemented a college management system to manage notices, assignments, and resources.
- Built admin and student interfaces with user authentication and data storage using MySQL.
- Improved accessibility and automation of academic resources, reducing manual record-keeping.

Alphabet Learning Website (30 DAys
- Created a responsive educational website for teaching alphabets with audio pronunciation features.
- Designed interactive UI for learning both capital and small letters.
- Enhanced user engagement through a simple and visually appealing design
